## INTRODUCTION

This is the single group Solvency and Financial Condition Report ("SFCR" or "Report") for The London Steam-Ship Owners' Mutual Insurance Company Limited ("The London P&I Club" or "the Club"), prepared as at 20 February 2019 in accordance with the requirements of Directive 2009/138/EC and Delegated Regulation (EU) 2015/35.

The Club's core business is the provision of mutual Protection & Indemnity ("P&I") insurance on a mutual and fixed premium basis for ship-owners, operators and charterers. It also provides Freight, Demurrage & Defence ("FD&D") and War Risks insurance. It is a member of the 13 strong International Group of P&I Clubs ("IG") which between them provide P&I cover on a mutual basis for approximately 90% of the world's ocean-going tonnage. More information on the IG can be found at [www.igpandi.org](http://www.igpandi.org).

On a UK GAAP reporting basis the Club's net earned premium income for the year just ended was US\$84.0m, an increase of US\$2.7m on the prior year comparative. A 24% year-on-year increase in the cost of claims coupled with a continuation of the downward pressure on rates lifted the combined ratio for the year to 140.1%. Investment income of US\$8.9m net of associated investment management expenses was recognised in the financial year. The Club's operating result for the year after tax was a deficit of US\$25.8m. Free reserves at 20 February 2019 stood at US\$168.8m.

As a true mutual, the Club is owned by, directed by and run for the benefit of its mutual Members. The Systems of Governance section of this Report sets out the arrangements in place by which the Club's Board, assisted by a number of Committees and Sub-Committees, directs its affairs. The Board is currently comprised of six ship-owner representative non-executive directors drawn from the Club's mutual Membership, two independent non-executive directors and three executive directors drawn from the Club's independent management company, A. Bilbrough & Co Ltd.

As at 20 February 2019 the Club's Solvency Capital Requirement ("SCR"), calculated using the standard formula, was US\$113.3m, and its Minimum Capital Requirement ("MCR") was US\$38.1m. The Club's overall capital resources available to meet the SCR and MCR stood at US\$170.6m, comprising US\$145.6m of Tier 1 basic own funds and US\$25.0m of Tier 2 ancillary own funds.

For The London Steam-Ship Owners' Mutual Insurance Association Limited on a solo basis ("LSSO London") the standard formula derived SCR and MCR as at 20 February 2019 stood at US\$77.1m and US\$19.3m respectively. LSSO London had Overall capital resources available of US\$170.1m at this date.

## APPROVAL BY THE BOARD OF DIRECTORS

We acknowledge our responsibility for preparing the Club's SFCR in all material respects in accordance with the PRA Rules and the Solvency II Regulations.

We are satisfied that:

- a) throughout the financial year in question, the Club has complied in all material respects with the requirements of the PRA rules and Solvency II Regulations as applicable to the Club; and
- b) it is reasonable to believe that, at the date of the publication of this SFCR, the Club has continued so to comply, and will continue so to comply in the future.

For and on behalf of the Board

I PAUL  
Director

AG JONES  
Director

08 July 2019

# 1 BUSINESS AND PERFORMANCE

## 1.1 Business Information

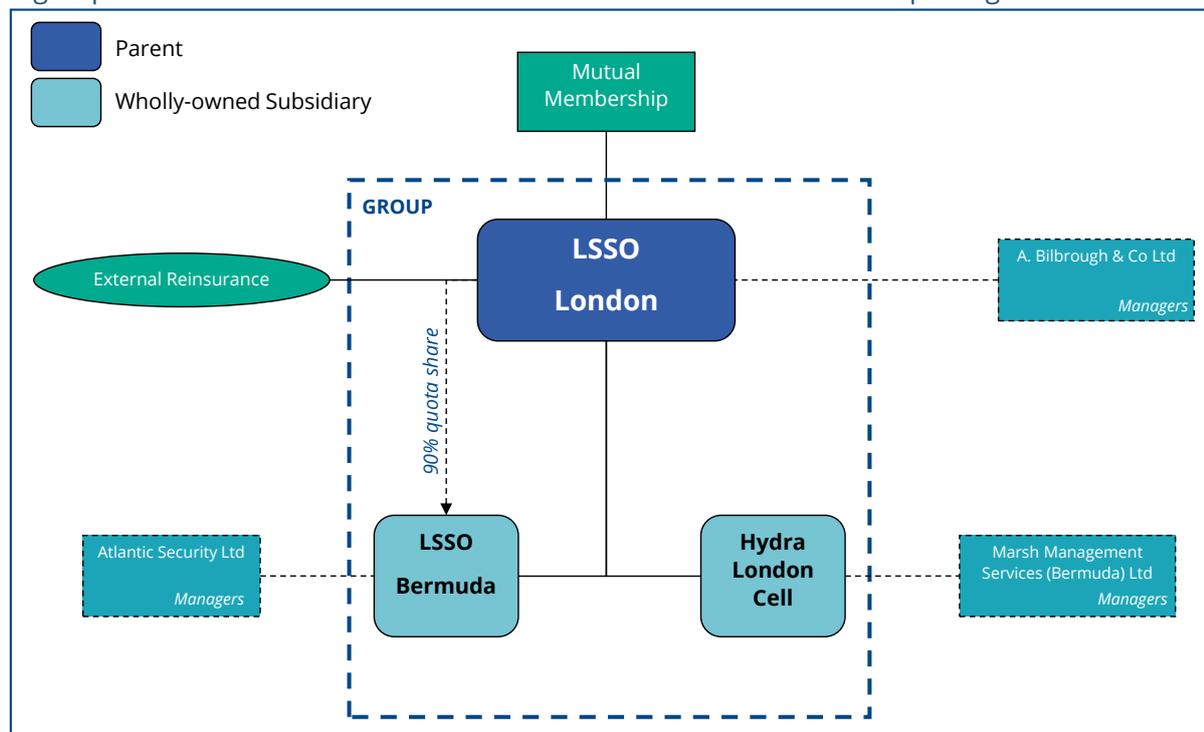

### 1.1.1 Legal & Operating Structure

The London P&I Club is a private mutual insurance company limited by guarantee without share capital. It was incorporated in the United Kingdom in 1876 (Company number 10341) and its registered office address is 50 Lemn Street, London E1 8HQ.

For UK GAAP reporting purposes the Club has two wholly owned trading subsidiaries as follows:

- The London Steam-Ship Owners’ Mutual Insurance Association (Bermuda) Limited (“LSSO Bermuda”); and
- Hydra Insurance Company Limited (“Hydra”) – London Cell (“Hydra London Cell”).

A group structure chart for the Club on the basis of UK GAAP financial reporting is included below:

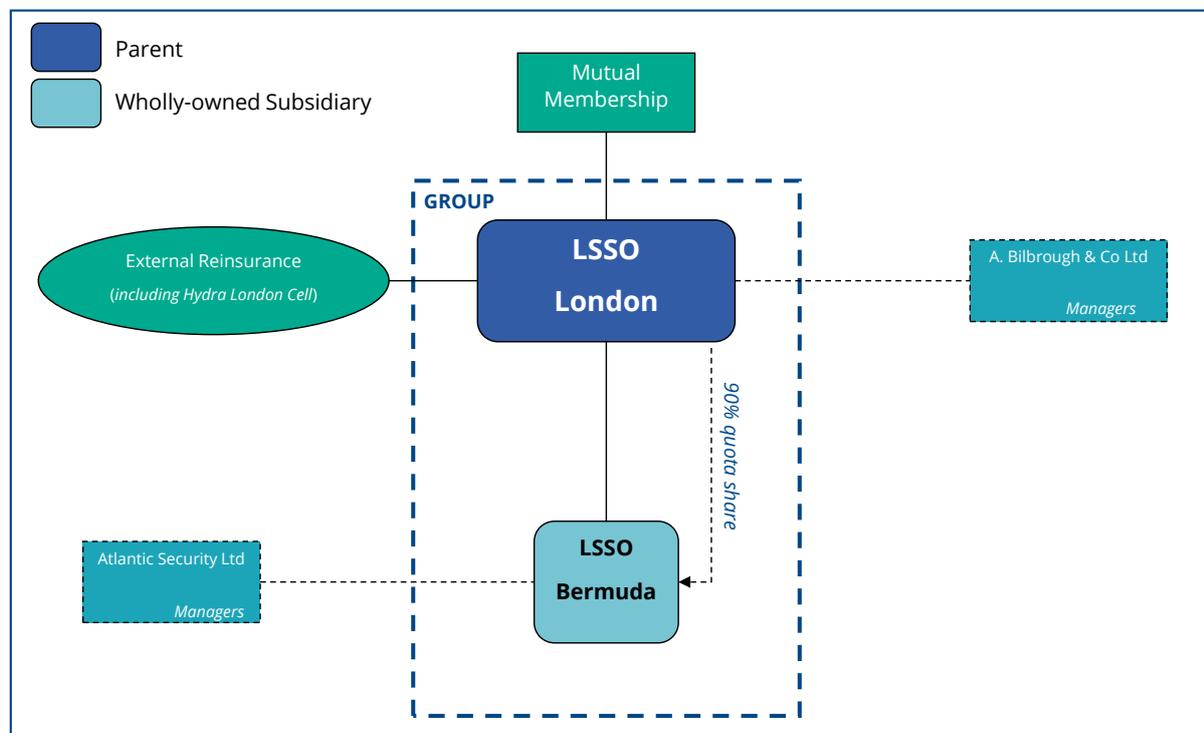

The parent entity is the sole provider of insurance to third party Members and assureds and is owned by the Mutual Membership. The day-to-day operation of the Club is undertaken by a dedicated management company, A. Bilbrough & Co Ltd.

LSSO Bermuda is a private mutual insurance company limited by guarantee. It was incorporated in Bermuda in 1978 (Company number 6685), is a Class 2 licensed insurer regulated by the Bermuda Monetary Authority and its registered address is Clarendon House, Church Street West, Hamilton HM DX, Bermuda. The activities of LSSO Bermuda are limited to the intra-group reinsurance of insurance business written by the Club. Under a quota share reinsurance agreement which has been in place in its current form since 1996, the Club cedes 90% of gross premiums (less a ceding commission) and 90% of gross claims incurred to LSSO Bermuda. Furthermore, the Club cedes 90% of the cost of all external reinsurance purchases and 90% of all external reinsurance recoveries to LSSO Bermuda. The day to day operation of LSSO Bermuda is undertaken by Atlantic Security Ltd, a privately held firm providing captive management services in Bermuda.

Hydra is a segregated accounts company registered in Bermuda under the Segregated Accounts Companies Act 2000. It reinsures IG Clubs for a proportion of the pooled risk not covered by the IG Reinsurance Programme. Each Club has its own segregated cell, wholly owned and funded by share capital, contributed surplus and premium from the owning Club, although the cells are not in themselves separate legal entities.

The Club accounts for its investment in Hydra as a special purpose entity, consolidating the cell financial statements for Hydra London Cell into its UK GAAP consolidated financial statements. As with LSSO Bermuda, the activities of Hydra London Cell are limited to the intra-group reinsurance of the Club's business. The day to day operation of Hydra is undertaken by Marsh Management Services (Bermuda) Limited, a subsidiary of Marsh Inc. providing captive management services in Bermuda.

An organisation chart for the Club on the basis of Solvency II reporting is included below:

For Solvency II reporting purposes the Club's investment in Hydra is accounted for as an equity investment asset. The Club has assessed that it is not a related undertaking as defined in Article 212 of Directive 2009/138/EC. The trading activities of Hydra are not significant enough to lead any distortion of Club operating performance attributable to this difference in accounting treatment.

### 1.1.2 Supervisory Authority

The Club is regulated in the United Kingdom by the Prudential Regulation Authority ("PRA") and the Financial Conduct Authority ("FCA"). The PRA is responsible for financial supervision of the Club on a solo basis and at the level of the group. The PRA is a wholly owned subsidiary of the Bank of England and its contact address is 20 Moorgate, London EC2R 6DA.

### 1.1.3 External Auditor

The Club's external auditor is BDO LLP, 150 Aldersgate, London EC1A 4AB.

### 1.1.4 Single SFCR

In accordance with Article 256 of Directive 2009/138/EC LSSO London applied for, and received, approval to publish a single group SFCR. Notwithstanding the fact that the Club is a legal group, it is operated and managed on a unified basis. As is clear from the operating structure described above, the Club is not a group in the conventional sense with subsidiary business units writing third party business. The Club operates with a single book of business only, split 10%/90% by way of a quota share agreement. As part of its 2018 ORSA process the Club, to the extent that it was possible, assessed the risks and solvency requirements of the Club on a solo basis as well as at the level of the group. In endeavouring to develop a robust and comprehensive approach to the ORSA process management looked from a number of different angles at how the Club's group risks might deviate from the solo risks. With each approach taken, however, the conclusion reached was that its risks and solvency needs on a solo basis were in all respects the same as those at the level of the group.

Non-life underwriting risk for LSSO London on a solo basis is substantially reduced compared to risk at the level of the group due to the 90% quota share ceding to LSSO Bermuda. Any non-life underwriting loss suffered by LSSO Bermuda, however, is ultimately borne by LSSO London on a solo basis in the form of a reduction in the net asset value of LSSO Bermuda as a related undertaking on the solo balance sheet. The market value consistent approach under Solvency II to the valuation of participating undertakings on the solo balance sheet eliminates any risk mitigating benefit on a solo basis arising out of this type of intra-group reinsurance arrangement.

The appendices to this Report include the full suite of Annual Quantitative Reporting Templates (“QRTs”) completed at the level of the group as well as for LSSO London on a solo basis. All references to the Club in this Report have the meaning of the group and all financial information disclosed is at the level of the group unless expressly stated otherwise. The Report includes, where practical to do so, information disclosed at a solo level as well as at the level of the group. In the opinion of management, however, only information disclosed at the level of the group provides any meaningful insight into the solvency and financial condition of the Club.

### 1.1.5 Material lines of business

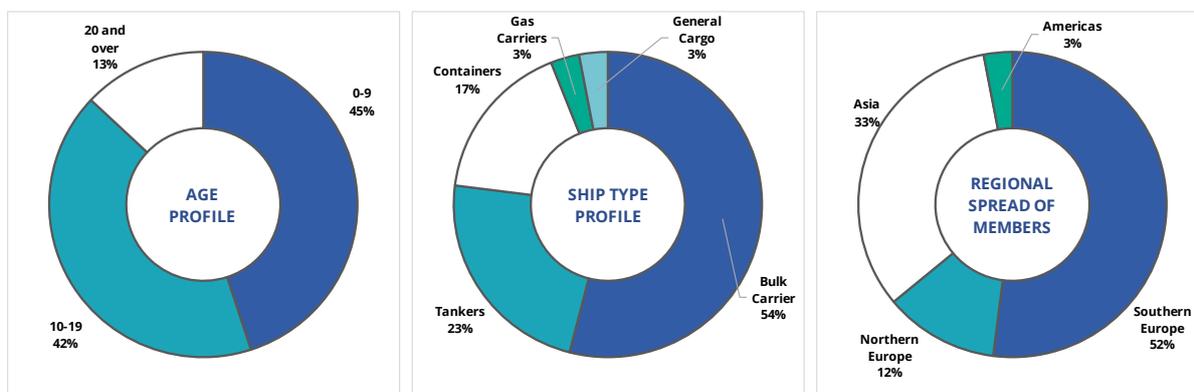

The Club’s material lines of business are as follows:

- P&I insurance on a mutual and fixed premium basis for ship-owners, operators and charterers; and
- FD&D insurance on a mutual and fixed premium basis for ship-owners, operators and charterers.

The majority of the Club’s underwriting activity is carried out from its head office in London. The Club is also writes a small proportion of overall business from its branch office in Hong Kong, where it is authorised by the Insurance Authority.

## 1.2 Underwriting Performance

The Club’s dominant line of business is insurance for P&I risks. The pie charts below illustrate the P&I mutual tonnage profile of the Club by ship type, regional spread of Members (based on place of management) and by ship age:

Underwriting performance for all business written, along with prior year comparatives, is presented below as shown in the Club’s consolidated GAAP financial statements for the year ended 20 February 2019:

	2018/19 US\$'000	2017/18 US\$'000
Net earned premiums	83,989	81,335
Net incurred claims	(104,019)	(83,902)
Net operating expenses	(13,644)	(12,655)
<b>Technical result</b>	<b>(33,674)</b>	<b>(15,222)</b>

Underwriting performance for the Club's two material lines of business, along with prior year comparatives, is presented below as shown in the Club's consolidated GAAP financial statements for the year ended 20 February 2019:

	CLASS 5 P&I		CLASS 8 FD&D	
	2018/19 US\$'000	2017/18 US\$'000	2018/19 US\$'000	2017/18 US\$'000
Net earned premiums	73,664	72,786	10,388	8,461
Net incurred claims	(95,517)	(75,989)	(8,502)	(7,913)
Net operating expenses	(11,822)	(10,996)	(1,805)	(1,629)
<b>Technical result</b>	<b>(33,675)</b>	<b>(14,199)</b>	<b>81</b>	<b>(1,081)</b>

The Club's technical result for the financial year under review was a deficit of US\$33.7m and a combined ratio of 140.1%. Gross revenues increased 1.9% year-on-year to US\$103.7m, with net earned premiums of US\$84.0m increasing by 3.3%. These increases were wholly attributable to volume growth, with premium rates across all product lines having once again moved downwards over the course of the year.

Net incurred claims for 2018/19 were US\$20.1m (24.0%) higher than in 2017/18 and US\$34.5m (49.7%) higher than in 2016/17. The Club incurred two claims costly enough to enter the IG Pool in the 2018/19 policy year.

LSSO London's underwriting result for the year was a deficit of US\$17.2m.

### 1.3 Investment Performance

The Club achieved an overall return for the year on invested assets and cash holdings of 3.0% for 2018/19, contributing US\$8.9m to the operating result for the year. This investment performance was down on the prior year when the Club recorded a 5.5% return contributing US\$21.0m to the overall operating result. The following two tables below provide a breakdown of the investment return for both years by asset class and income/expenses component:

Asset Class	2018/19 US\$'000	2017/18 US\$'000
Equity securities	1,929	15,259
Debt securities	8,641	4,913
Investment property	(1,278)	1,962
Cash & cash equivalents	948	442
Other	973	831
Investment expenses	(2,306)	(2,457)
<b>Investment return</b>	<b>8,907</b>	<b>20,950</b>

Income/Expense component	2018/19 US\$'000	2017/18 US\$'000
Investment income	11,072	9,831
Realised gains/losses on investments	4,904	14,008
Unrealised gains/losses on investments	(5,711)	(874)
Bank & other interest receivable	948	442
Investment expenses	(2,306)	(2,457)
<b>Investment return</b>	<b>8,907</b>	<b>20,950</b>

High grade fixed income securities and cash holdings recorded returns for the financial year of 3.7% and 1.4% respectively. US equities returned 4.8%. US dollar strengthening had the effect of converting a 1.8% local currency return on the Club's exposure to non-US equities into a 6.3% US dollar loss, offsetting the currency driven reduction in the value of the Club's non-US denominated liabilities against which these assets are matched for hedging purposes. In accordance with its capital management planning objectives the Board took measured action during the year to reduce the Club's exposure to investment risk as a response to actual and anticipated movements in overall capital resources.

LSSO London recorded an investment loss for the year after tax of US\$0.2m, including foreign exchange gains and losses.

#### 1.4 Performance of Other Activities

The Club had no other material income and expenses over the reporting period.

#### 1.5 Any Other Information

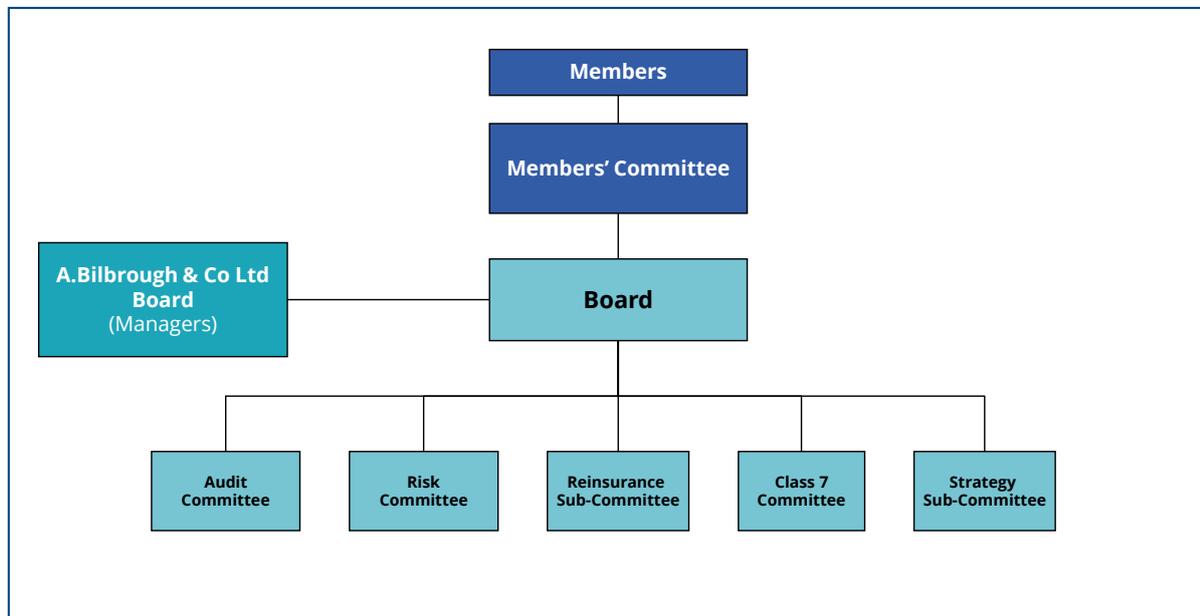

There is no other material information to report regarding the Club's business and performance.

## 2 SYSTEM OF GOVERNANCE

### 2.1 General Information on the System of Governance

#### 2.1.1 Corporate Governance Structure

The governance structure in place within the Club is illustrated below:

The following descriptions are based on the Terms of Reference in place for each body forming part of the governance structure of the Club. The Terms of Reference are reviewed annually.

#### *Members' Committee*

This Committee will ordinarily have no fewer than seven but no more than 37 members. Members are appointed by the Members' Committee and one third of the members are required to retire and seek re-election annually at the AGM of the Club. It meets normally four times a year. The overarching duty of the Members' Committee is to ensure the interests of the Members as a whole are represented at all times, promoting a culture of mutuality and fairness. Furthermore it exists to provide the Board with support, challenge and Member perspective and views on the operation of the Club. The Members' Committee does not carry out any regulated function.

#### *Board*

The Board will ordinarily have no fewer than seven but no more than 14 members. Members are appointed by the Board and one third of the members are required to retire and seek re-election annually at the AGM of the Club. The Chairman and Vice-Chairmen are elected by the Board, subject to the approval of the Members' Committee, and are required to be re-elected annually. The Board will normally meet four times a year in January, April, July and October and at other times as the Chairman or three members of the Board acting together act to call a meeting. As the body with overall responsibility for the direction of the Club its duties and responsibilities are extensive, including but not limited to:

- Determining the corporate governance and structure of the Club;
- Calling annual general meetings, other general meetings and Class meetings of the Club in accordance with the Articles;
- Reviewing, proposing and seeking approval for changes to the Articles and Rules at general meetings or Class meetings of the Club;
- Appointing and removing members of the Board's Sub-Committees;
- Determining the remuneration of the Board and its Sub-Committees;
- Directing and monitoring the operation of the Club in accordance with the Articles and Rules;

- Setting the strategic direction of the Club, including determining the Club's investment, underwriting and marketing strategies, business model and plan;
- Setting the risk appetite for the Club and considering and approving the risk policies of the Club;
- Monitoring and reviewing the overall financial, claims, operational and investment performance of the Club;
- Ensuring and overseeing the Club's compliance with all applicable legal, regulatory and capital requirements and implementing all adequate systems and controls to ensure that such requirements are met; and
- Approving all regulatory returns and submitting the annual report of the Club to the Members.

#### *Audit Committee*

The primary purpose of this Committee is to assist the Board in monitoring and reviewing in detail the annual financial statements and regulatory returns of the Club, internal controls and internal and external audit matters affecting the Club. It will make recommendations to the Board and, where authorised by the Board, instruct the Managers to take action in relation to matters such as the integrity of the management accounts and annual financial statements, the effectiveness of all audit activities, selection of the Club's statutory and internal auditors, the effectiveness of the Managers' system of internal control, the regulatory environment in which the Club operates and its compliance with regulatory and corporate governance requirements.

#### *Risk Committee*

This Committee's primary duties are to assist and report to the Board and Audit Committee on risk matters and to ensure that the Club's risk management system is suitable, effective and proportionate to the nature, scale and complexity of the risks in the business whilst ensuring that the Club fulfils its corporate governance and regulatory responsibilities relating to risk management, solvency and capital management.

#### *Reinsurance Sub-Committee*

This Sub-Committee will direct and monitor all matters relating to reinsurances or other insurances purchased by the Club, including the strategy for protecting the Club as a whole as well as the individual product lines offered by the Club. This Sub-Committee is also responsible for decisions on whether and at what level of indemnity to purchase Directors' & Officers' Liability insurance to protect the members of the Board and the Members' Committee, officers and Managers against claims made against them personally.

#### *Strategy Sub-Committee*

This Sub-Committee's primary duties are to assist and to report views and recommendations to the Board on strategic issues involving the Club's performance, positioning and prospects, including product lines offered by the Club, the Club's business environment and strategic initiatives including potential alliances and mergers.

### 2.1.2 Senior Managers Regime

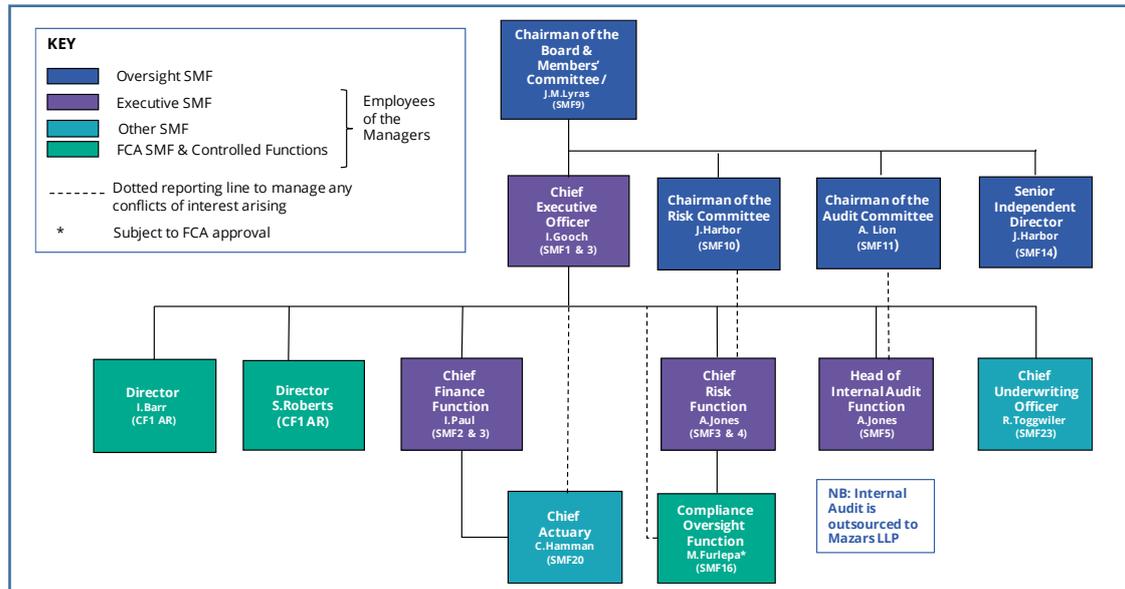

The PRA's Senior Managers & Certification Regime ("SM&CR") is the accountability regime for senior executives of insurance firms and it requires the Club to maintain a Management Responsibilities Map to evidence the appropriate apportionment of responsibilities amongst the members of the Board and Executives who have been approved by the PRA to undertake Senior Management Functions. The map must be updated at least quarterly and in the event of a significant change to the responsibilities allocated to a Senior Manager, in reporting lines or lines of responsibility. Material changes to the Management Responsibilities Map are approved by the Board.

The Club's Management Responsibilities Map complies with all of the PRA's expectations and aims to document clearly and coherently:

- The structure of the Club;
- Reporting lines to the Board;
- Individual reporting lines and lines of responsibility;
- The Key Functions identified by the Club;
- The names of the persons effectively running the Club;
- For each person named, a summary of significant responsibilities allocated to them including any PRA prescribed responsibilities; and

- If responsibilities are shared, clarity on how they are shared or divided.

The Senior Management Function-holders and FCA Controlled Functions for the Club are shown in the chart below:

### 2.1.3 Remuneration Policy & Practices

The Club has a Remuneration Policy, the key principles of which are:

- Remuneration for Directors of the Club and its Managers will take into account the achievement of the business objectives outlined in the Business Plan, the long-term interests of the Club and market rates.
- Performance related bonuses, incentives, or any other variable parts of remuneration, to the Club's Directors, Directors and employees of the Managers or other material outsourced service providers are prohibited to ensure that conflicts of interest are avoided.
- Any termination payments must be approved by the Management Board who will ensure that they are appropriate and take into account the performance and contribution of the individual over the full term of their employment.
- One-off payments to the Managers' employees to recognise past exceptional performance are permitted at the discretion of the Management Board. Such payments will only be made where a positive contribution has been made to the Membership and will not be material compared to the recipient's annual fixed pay.

The Club did not operate any enhanced pension arrangements or early retirement schemes for members of the Board or key function holders during the period.

### 2.1.4 Related Party Transactions

The Club has no share capital and is controlled by its mutual Members who are also insureds. Most members of the Board are representatives or agents of Member companies. Other than the insurance and Membership interests in the Board members' companies, members of the Board have no financial interest in the Club.

## 2.2 Fit & Proper Requirements

The competency requirements and qualifications of Senior Managers and key function holders are those identified as appropriate for each individual role and any specialisms applicable. For all Senior Managers competencies considered are:

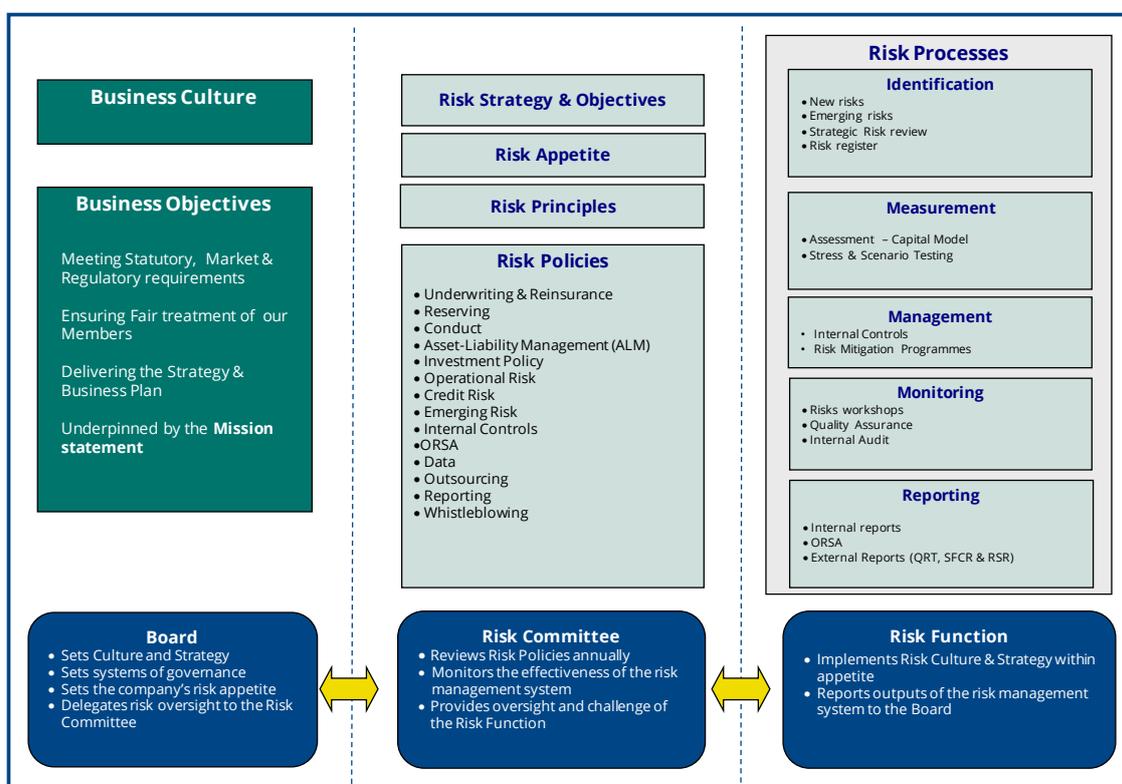

- Market Knowledge
- Financial Analysis
- Customer Experience
- Corporate Governance
- Insurance Regulation
- Underwriting & Claims

The Club has implemented a Fit & Proper Policy and processes to ensure individuals acting for the Club are both fit and proper, in line with PRA and FCA rules. On appointment all Senior Managers are subject to due diligence enquiries to ensure that they are honest, of good reputation, have integrity, and are financially sound. The fit and proper assessments are repeated annually.

### 2.3 Risk Management System

The risk management system of the Club is fully documented and subject to regular review and updating by the Risk Committee and ultimately the Board. The Club's Enterprise Risk Management Framework ("ERMF") is the overarching document which describes the risk management system in place and cross refers to the extensive library of risk documentation, processes and procedures which combine to ensure the Club is able to effectively identify, measure, monitor and report the risks to which the Club is exposed.

A chart taken from the Club's ERMF, which describes in graphical format the Business Objectives, Risk Strategy & Objectives and Risk Processes, and how they knit together and are integrated into the Club's organisational structure, is included below:

The Club's Risk Appetite Framework ("RAF") includes a description of its risk strategy. Risk preferences are those risks identified as presenting opportunities and which are taken deliberately in the expectation of creating value and contributing to achieving the Club's business objectives. For each risk preference, the strategy requires a quantitative expression of the Club's risk tolerances and risk limits.

Reporting procedures at Board, and Sub-Committee level in regard to the monitoring and managing of risks are referred to in Section 2.1.1. At a more granular level, and as presented in the chart above, there are a range of risk processes in place to ensure the Club is able to effectively identify, measure, manage, monitor and report on the risks to which it is exposed. More detail on the key processes is provided below:

#### Identification

- The Risk Committee (RC) maintains and updates as appropriate a log of new and emerging lists at each meeting.
- The RC conducts an annual review of the Club's overall risk profile soon after the Club's 20 February renewal date for its mutual business to identify any new or emerging risks arising out of changes in the mix of business on risk and/or evolving claims experience.

- The Club's Risk Register is reviewed and updated as risks change, or at least annually.

#### Measurement

- The Club's internal capital model is updated annually and calibrated to measure all material, quantifiable risks to which the Club is exposed over a one year time horizon.
- The Club's Risk Register incorporates an impact and likelihood scoring matrix for each individual risk identified.
- The Own Risk & Solvency Assessment (ORSA) process includes stress testing and scenario analysis to measure the financial impact of a range of specific extreme events.

#### Management

- The Club's internal control system ensures robust controls are in place to mitigate material risks identified in the business.
- The Club's Risk Register incorporates a scoring matrix which measures the risk mitigating impact of controls in place for each risk identified.

#### Monitoring

- Processes in place for measuring and reporting ensure that all risks are appropriately monitored over time.

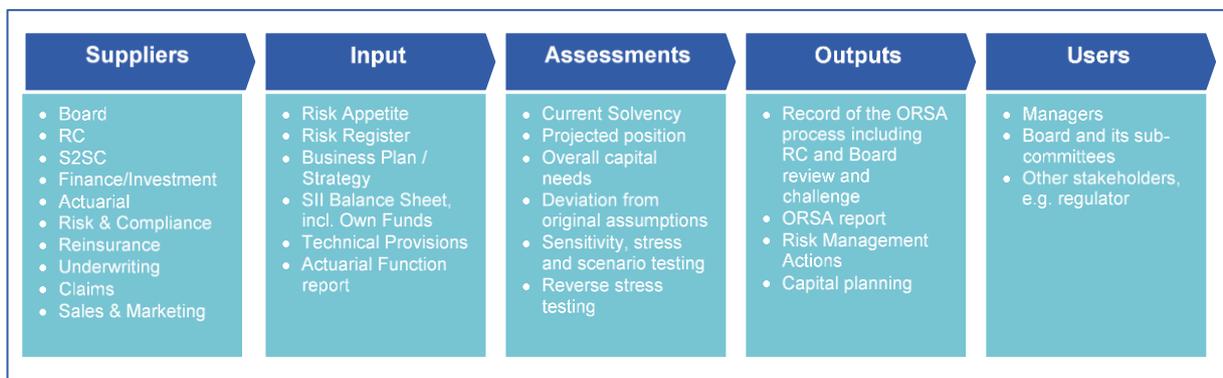

#### Reporting

- Measurement of all material, quantifiable risks to which the Club is exposed over a one year time horizon, as calculated using the Club's internal capital model, is reported to the RC annually.
- The Club's Risk Register is updated and presented to the RC at least annually. Changes to the Risk Register and an update on any risk management actions are reported at each RC meeting.
- The Club's Internal Audit Function submits written reports to the Audit Committee (AC) and attends AC meetings on a biannual basis.
- The Club's ORSA Report is presented to and reviewed by the Board at least annually.

## 2.4 Own Risk & Solvency Assessment (ORSA)

The Club carries out an assessment of its own risks and solvency requirements annually, following the processes and procedures for this assessment prescribed in its ERMF and ORSA Policy & Procedures document ("ORSA policy").

The ORSA policy states that the Board retains overall responsibility for the Club's risk management framework and approval of the ORSA. It has delegated to the Risk Committee authority for oversight and challenge of risk and associated controls. The Chief Finance function holder has the PRA prescribed responsibility for performance of the Club's ORSA. The following chart from the Club's ORSA Policy shows the end-to-end assessment process:

The individual processes undertaken during the assessment process are designed to address EIOPA's Guidelines on own risk and solvency assessment (EIOPA-BoS-14/259 EN), appropriately tailored to reflect the nature, scale and complexity of the Club's risks. The most recent ORSA was conducted in 2018 and included an assessment of the following:

- The Club's risk profile;
- The Club's business strategy;
- The extent to which the Club's risk profile deviated from the assumptions underlying the standard formula SCR calculation;
- Stress and scenario testing of the capital charges by risk category;
- The Club's risk appetite and risk tolerances/limits;
- The Club's current and prospective overall solvency position over its five year business planning time horizon;
- Non-quantifiable risks not captured by the standard formula;
- The Club's current and prospective solvency needs over its five year business planning time horizon;
- The quality and quantity of the Club's current and prospective financial resources available to meet its solvency needs; and
- Capital planning and management.

The Board reviews annually in detail the ORSA Report prepared following the conclusion of the assessment process. This Board validation, challenge and assessment process was undertaken at the Board Meeting held on 17 October 2018.

## 2.5 Internal Control System

The Club's internal control system is documented in its Internal Controls Policy. This policy aims to assist with the achievement of the Mission Statement and Corporate Objectives, and to ensure fair outcomes for Members and compliance with all applicable regulations. The policy requires all Management to implement robust controls to mitigate material risks identified in the business in order that risks do not exceed the Club's risk appetite. Management of controls is a key part of the Club's Risk Management System and the Quality Management System. ISO 9001 accreditation is maintained in respect of the Quality Management System.

The policy requires Management:

- To effect appropriate internal controls within their processes and procedures in order to ensure:
  - Continuous compliance with all relevant regulations
  - Mitigation of risks arising which are outside the Club's Risk Appetite
  - The availability and reliability of financial and non-financial reporting
  - Service excellence to Members.
- Where weaknesses in internal controls are identified, to implement effective strategies to mitigate the risks arising.
- To provide regular feedback to the Audit Committee, Risk Committee and Quality Steering Committee on the status of internal controls and any actions arising.

The Club operates a three lines of defence model to guide how responsibilities are divided:

- 1<sup>st</sup> Line – Risk owners (Directors and Line Managers) are responsible for the continuous identification and assessment of risks within their departments and for ensuring effective systems and controls are in place to mitigate risks arising.
- 2<sup>nd</sup> Line – The Internal Audit Function reviews the effectiveness of the Internal Controls environment and adherence to the Internal Controls Policy. The Risk & Compliance Function monitors risks arising and the operation of the risk management system.
- 3<sup>rd</sup> Line – External quality assessments by the ISO accreditation body and a review of the risk and control environment operating within the business as part of the Club annual external audit.

### 2.5.1 Compliance Function

The Club's Compliance Manual describes how the Compliance Function is organised to ensure compliance with the requirements of its prudential and conduct regulators both in the UK and in all other jurisdictions in which the Club has a regulated presence. It defines the responsibilities, competencies and reporting duties of the Compliance Function and its documented key processes and procedures are consistent with the specific

requirements of Article 46(2) of Directive 2009/138/EC and Article 270 of the Commission Delegated Regulation 2015/35.

The responsibilities of the Compliance Function include:

- identifying, assessing, monitoring and reporting on the Club's compliance risk exposures and assessing the appropriateness of measures adopted by the Club to prevent possible non-compliances;
- providing support and advice to the Club's management on all compliance matters and arranging any training required by staff to ensure they understand the Club's regulatory obligations;
- assessing the impact of any changes in the legal environment on the operations of the Club and any new compliance risk exposures arising; and
- reporting to the Board on the Club's compliance with all laws, regulations and administrative provisions relevant to the jurisdictions in which it operates.

A Compliance Monitoring Plan sets out the scheduled activities and deliverables of the Compliance Function taking into account all relevant areas of the Club's activities.

## 2.6 Internal Audit Function

The Internal Audit Function is outsourced to Mazars LLP. To maintain objectivity, the Internal Audit Function is not authorised to perform any day-to-day activities or to take operational responsibility for any part of the Club on an outsourced basis. Internal Audit is directly accountable to the Chairman of the Audit Committee, and has free and unrestricted access to the Chairman of the Audit Committee and the Chairman of the Board.

The Mazars' audit partner responsible for the engagement attends the Audit Committee meeting to present his latest report on a biannual basis. Copies of the full audit reports, including management responses, are sent to the Chairman of the Audit Committee once finalised, with a summary report included in the Audit Committee Agenda.

Mazars present for approval their proposed three year rolling internal audit plan, including details of and the rationale for audits to be performed, to the Audit Committee biannually.

## 2.7 Actuarial Function

The Club's Specification for the Actuarial Function – Policy and Material Responsibilities document describes how the actuarial function is organised to ensure compliance with the requirements of Solvency II.

The Club's management has an actuarial team, headed by a qualified actuary, providing the Club with an effective Actuarial Function. The documented key processes and procedures for the Actuarial Function are consistent with the specific requirements of Article 48 of Directive 2009/138/EC.

## 2.8 Outsourcing

The Club's Outsourcing Policy has been prepared on the basis that the major outsourcing arrangement is between the Club and its managers, A. Bilbrough & Co Ltd, an arrangement that has been in place since the origins of the Club in the 1860's.

The Policy includes a number of Policy Statements which provide a framework within which this key outsourcing arrangement is organised, for example stipulating that it is subject to a written legal agreement which meets all legal and regulatory requirements, and requiring the Club to maintain a Contingency Plan for the termination of the arrangement.

The Policy further contains a list of Board roles and responsibilities retained by the Board in respect of the arrangement, examples being an annual review of the financial resources of the Managers to properly perform the agreement, a formal review of the agreement at least every five years and bi-annual tests of the Managers' BCP arrangements with results reported annually to the Board.

## 2.9 Assessment of the Adequacy of the System of Governance

The Club is a relatively small insurer with a simple operating structure focused principally on providing P&I insurance to its mutual members and fixed premium assureds. Notwithstanding this, it has in place a comprehensive system of governance complying with the same full suite of Solvency II regulatory requirements applicable to the EU's largest and most complex insurance groups. Against this background the Club assesses that its system of governance is more than adequate for the nature, scale and complexity of the risks inherent in its business.

### 2.10 Any Other Information

There is no other material information to report regarding the Club's system of governance.

## 3 RISK PROFILE

### 3.1 Underwriting Risk

#### *Premium Risk*

Premium risk is the risk that Calls and Gross Premiums will not be sufficient to cover losses and associated administrative expenses. This risk is managed and mitigated by writing a diversified book of business, with documented underwriting guidelines and risk appetite tolerances in place to ensure only acceptable risks are entered with the Club. The risk function regularly reviews and analyses the portfolio of business on risk during the year, including portfolio composition by ship type, ship age and place of management.

The purchase of appropriate reinsurance is central to the management of underwriting risk on a net basis in line with the Club's capital management plan. The Club is a member of the IG which operates a pooling system for the sharing of claims costs on an excess of loss basis, and further purchases commercial market reinsurance on a collective basis for all Clubs. The Club purchases additional reinsurance for its exposure to claims below the attachment point of the IG Pool and for exposure to non-poolable risks.

#### *Reserving Risk*

Reserving risk is the risk that technical provisions set in respect of claims incurred but not settled are ultimately insufficient to cover future settlements and associated claims handling expenses. In common with all marine liability insurers there remains uncertainty with regards to the eventual cost of claims incurred but not settled at each year end date. Sources of uncertainty include changes in the economic climate, national and international liability regimes, commodity prices and currency fluctuations amongst many others. The Club's processes and procedures for valuing technical provisions reflect the fact that this represents a high risk area for the Club.

The Club incorporates a risk margin within its technical provisions in excess of the best estimate projected future cost in order to reduce the probability that the valuation is insufficient to cover future settlements and associated claims handling costs. It is to be expected that actual experience will differ from the valuation of technical provisions at the year-end date, and there remains a residual risk that the eventual outcome will exceed the valuation.

Some results of sensitivity testing are set out below, showing the impact on surplus before tax and equity, gross and net of reinsurance. For each sensitivity, the impact of a change in a single factor is shown, with other assumptions unchanged. The sensitivity analysis assumes that a change in loss ratio is driven by a change in claims incurred.

	2018/2019 US\$'000	2017/2018 US\$'000
<b>Increase in Loss Ratio by 5 percentage points</b>		
Gross	(5,188)	(5,086)
Net	(4,204)	(4,067)
<b>Decrease in Loss Ratio by 5 percentage points</b>		
Gross	5,188	5,086
Net	4,204	4,067

### 3.2 Market Risk

Market risk is the risk of an adverse financial impact arising from fluctuations in the value of, or income from, its assets and liabilities. The principal sources of market risk are interest rate risk, equity price risk and foreign currency risk.

The majority of the Club's invested assets are held by LSSO Bermuda. The LSSO Bermuda Board, whilst comprising individuals with a range of skills and experience, possesses a bias towards financial market experience, covering amongst other things investment management, portfolio construction tailored to prevailing risk appetite, investment manager and security selection, compliance and portfolio analysis. The control environment, including investment manager guidelines, monthly reporting obligations and standing

agenda items for each Meeting of the Board, combine to ensure the Club can at all times properly identify, measure, monitor, manage, control and report the investment risks to which it is exposed.

#### *Interest Rate Risk*

The capital values of fixed interest securities, which represent a significant proportion of the Club's invested assets, and interest rates have an inverse relationship. When interest rates rise, capital values will fall to adjust the fixed coupon in line with yields available elsewhere in the market. Furthermore, the longer a security's duration, the more price sensitive it will be to changes in interest rates.

The Club's Investment Policy Statement addresses interest rate risk by actively managing the average duration of each of the Club's fixed interest portfolios.

The Club does not consider its technical provisions to be directly sensitive to interest rate risk, however the average duration of its fixed interest holdings and its technical provisions is broadly matched.

It is estimated that the value of the Club's fixed interest securities would decrease in value by the following amount if market interest rates increased by 100 basis points at the year-end date. This sensitivity analysis is limited to interest rate sensitive asset holdings as the mitigating effect of matching liability valuation changes is not considered to be significant.

<b>Increase of 100 Basis Points</b>	<b>Reduction in Valuation US\$'000</b>
As at 20 February 2019	11,166
As at 20 February 2018	12,224

#### *Equity Price Risk*

Equity price risk is the risk of an adverse movement in the valuation of the Club's equity holdings. The Club's Investment Policy Statement addresses equity price risk by actively managing the maximum proportion of the overall portfolio that can be allocated to this asset class and by imposing investment guidelines limiting the level of concentration in a single stock or industry sector.

A 10 per cent decrease in the value of equity securities held at the year-end date would have decreased accumulated reserves at that date by US\$7,453k (2018: US\$8,648k).

#### *Foreign Currency Risk*

A significant majority of the Club's liabilities are denominated in its functional currency of US Dollars. It does, however, incur liabilities in a range of other currencies, the two most significant being Sterling and Euro. The Club's assets are predominantly invested in US\$ denominated securities to ensure there is a matching of assets and liabilities in respect of the dominant currency of operation.

The profile of the Club's assets and liabilities, categorised by settlement currency, at their translated carrying amount, is set out below. Certain amounts, either due to their nature, notably reinsurer's share of outstanding claims, or the existence of forward contracts, may depend on a different underlying currency.

<b>As at 20 February 2019</b>	<b>USD US\$'000</b>	<b>GBP US\$'000</b>	<b>EUR US\$'000</b>	<b>Other US\$'000</b>	<b>Total US\$'000</b>
Total Assets	467,864	25,123	10,994	7,589	511,570
Total Liabilities	291,436	14,337	12,792	24,162	342,727
<b>Net Asset Position</b>	<b>176,428</b>	<b>10,786</b>	<b>(1,798)</b>	<b>(16,573)</b>	<b>168,843</b>
<b>As at 20 February 2018</b>	<b>USD US\$'000</b>	<b>GBP US\$'000</b>	<b>EUR US\$'000</b>	<b>Other US\$'000</b>	<b>Total US\$'000</b>
Total Assets	457,295	28,304	10,502	16,739	512,840
Total Liabilities	252,370	14,842	14,821	36,111	318,144
<b>Net Asset Position</b>	<b>204,925</b>	<b>13,462</b>	<b>(4,319)</b>	<b>(19,372)</b>	<b>194,696</b>

A 5 per cent change of the following currencies against the US dollar would be estimated to have increased/ (decreased) the surplus before taxation and net assets at the year-end by the following amounts:

	At 20 February 2019 US\$'000	At 20 February 2018 US\$'000
<b>Strengthening</b>		
Sterling	539	673
Euro	(90)	(216)
<b>Weakening</b>		
Sterling	(539)	(673)
Euro	90	216

### 3.3 Credit Risk

Credit risk is the risk that the Club will suffer a loss due to the failure of a counterparty to perform its contractual obligations. The primary sources of credit risk for the Club are:

1. Amounts due from reinsurers
2. Amounts due from Members and assureds
3. Counterparty risk with respect to investments and cash deposits

Reinsurance default risk is managed by regular monitoring of current and prospective reinsurance counterparties and by having in place guidelines in respect of acceptable credit ratings and concentration limits. On a solo basis the quota share reinsurance agreement with LSSO Bermuda explained in Section 1.1.1 represents a concentration of counterparty default risk. As explained in Section 1.1.4, however, the Club is operated on a unified basis and the underlying risks on a solo basis are the same as those at the level of the group.

Default risk in respect of Members and assureds is managed through the careful selection of new entrants and a cycle of regulator monitoring of existing Members and assureds. The Club's Management has in place processes and procedures for the regular monitoring of overdue receivable amounts, including escalation procedures leading ultimately to termination of cover in the event that amounts due are not settled in an appropriately timely manner.

As at 20 February 2019	SOF US\$'000	AAA US\$'000	AA US\$'000	A US\$'000	BBB & Below US\$'000	Other US\$'000	Total US\$'000

The Club's fixed interest securities expose the Club to the risk of default in addition to the interest rate sensitivity risk explained above. Investment related credit risk is managed by the appointment of specialist fixed income managers to invest these funds on behalf of the Club, in accordance with set investment

guidelines which ensure the level of risk does not exceed the Club's risk appetite and available capital. Minimum credit criteria are maintained for all bank counterparties with ratings dependent maximum exposure limits.

<b>As at 20 February 2019</b>	<b>SOPF</b>	<b>AAA</b>	<b>AA</b>	<b>A</b>	<b>BBB</b>	<b>Other</b>	<b>Total</b>

### 3.4 Liquidity Risk

This is the risk the Club may encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The predominant liquidity risk the Club faces is the daily calls on its available cash resources in respect of claims arising from insurance contracts.

The Club's approach is to maintain a significant holding of liquid assets, either in cash or in liquid assets that can be translated into cash at short notice and at low risk of suffering any material capital loss. Cash flow projections are reviewed and updated regularly to ensure the most efficient use of cash resources. All anticipated future profits in respect of future premiums are offset by losses as reflected in the Premium Provision calculation referred to in Section 4.2, which amount to about US\$12.5m.

The table below represents the monetary values of assets and liabilities into relevant maturing groups based on the date a contract will mature.

<b>Assets at 20 February 2019</b>	<b>SOPF</b>	<b>Up to 1 year</b>	<b>1-3 Years</b>	<b>3-5 Years</b>	<b>5+ Years</b>	<b>Total</b>

### 3.5 Operational Risk

Operational risks relate to the failure of internal processes, systems or controls due to human or other error. In order to mitigate such risks the Club documents all key processes and controls in a procedures manual. This manual is embedded into the organisation, updated on a continual basis by senior staff and available to all staff. Compliance with the procedures and controls documented within the manual is audited on a regular basis through quality control checks and the internal audit function which is directed and reviewed by the Audit Committee. A staff handbook contains all key policies that have also been documented.

### 3.6 Risk Concentrations

Appropriate risk mitigating controls in place protect the Club against exposure to any material risk concentrations.

### 3.7 Any Other Information

There is no other material information to report regarding the Club's Risk Profile.

## 4 VALUATION FOR SOLVENCY PURPOSES

The Group calculation has been prepared using the Accounting Consolidation-based method – Method 1 as set out in Article 230 of Directive 2009/138/EC which means the consolidated balance sheet of the Club has been prepared in accordance with Solvency II regulations.

### 4.1 Assets

The following table sets out a comparison of the valuation of assets between UK GAAP and Solvency II for both the Club and LSSO London:

Club	20 Feb 2019			20 Feb 2018		
	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000
Deferred acquisition costs	432	-	(432)	249	-	(249)
Investments (including derivatives)	335,031	309,522	(25,509)	385,461	364,539	(20,922)

Receivables (trade, not insurance)	20,889	19,299	(1,590)	6,017	4,466	(1,551)
Cash and cash equivalents	38,484	38,236	(248)	25,483	24,230	(1,253)
<b>Total Assets</b>	<b>511,569</b>	<b>506,392</b>	<b>(5,177)</b>	<b>512,839</b>	<b>508,134</b>	<b>(4,705)</b>
LSSO London	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000
Deferred Acquisition Costs	432	-	(432)	249	-	(249)
Investments (including derivatives)	20,308	20,185	(123)	45,133	45,017	(116)
Strategic equity investments	5,811	158,395	152,584	5,811	170,423	164,612
Reinsurers' share of technical provisions	317,410	291,975	(25,435)	297,459	257,603	(39,856)
Insurance and intermediaries receivables	7,073	5,855	(1,218)	8,216	7,123	(1,093)
Reinsurance receivables	1,115	1,115	-	1,495	1,495	-
Receivables (trade, not insurance)	2,624	2,593	(31)	705	654	(51)
Cash and cash equivalents	596	596	-	13,732	13,734	2
<b>Total Assets</b>	<b>355,369</b>	<b>480,714</b>	<b>125,345</b>	<b>372,800</b>	<b>496,049</b>	<b>123,249</b>

#### 4.1.1 Differences between Solvency II and UK GAAP valuations

In general, the valuation method of assets is aligned with the statutory accounts and so the basis of preparation aligns with the accounting policies outlined in the Club's Annual Report and Financial Statements in Notes 1 and 2. Exceptions to these methods are outlined in the relevant sections below, most of which relates to treatment of the Club's investment in Hydra.

##### *Deferred acquisition costs*

Under FRS103 acquisitions costs, comprising commission and other costs related to the acquisition of new insurance contracts are deferred to the extent that they are attributable to premiums unearned at the valuation date. Deferred acquisition costs are not recognised separately under Solvency II to the extent that they form part of the premium provision calculation of the technical provisions. Please refer to 4.2 later in this section of the SFCR for further details.

##### *Investments & Cash and cash equivalents*

The Club holds a diverse portfolio of equities, government and corporate bonds, and short-term deposits as well as one freehold property in London. Whilst the total value of the investments is unchanged between UK GAAP and Solvency II, there are small classification differences between asset sectors. The main difference is attributable to the treatment of the Club's investment in Hydra.

##### *Insurance and intermediaries receivables*

Under UK GAAP, insurance debtors include all insurance balances receivables, irrespective of the amounts overdue. Those amounts not yet due were reclassified as part of the Solvency II technical provisions.

### Strategic equity investments

As explained in section 1.1.1 of this Report, for UK GAAP reporting purposes the Club accounts for its investment in Hydra as a special purpose entity, consolidating the cell financial statements for Hydra London Cell. For Solvency II reporting purposes this investment is accounted for as an equity investment asset, specifically a strategic equity investment.

Strategic equity investments and investments in subsidiaries are valued at cost under UK GAAP whereas under Solvency II they are valued at their net asset value.

### Reinsurers' share of technical provisions

The difference between UK GAAP and Solvency II values for reinsurers' share of technical provisions reflects the difference in methodology used to calculate the underlying technical provisions under the two bases. Please refer to 4.2.1 later in this section of the SFCR for further details on the methodology followed to value reinsurers' share of technical provisions under Solvency II.

## 4.2 Technical Provisions

The following table shows separately for the Club and LSSO London the net best estimate and risk margin, as well as the comparative figures as at 20 February 2018:

<b>Club</b>	<b>20 Feb 2019</b>	<b>20 Feb 2018</b>	<b>Variance</b>
	<b>US\$'000</b>	<b>US\$'000</b>	<b>US\$'000</b>
Net Technical Provisions as per Statutory Accounts UK GAAP	226,303	219,608	6,695
Solvency II Adjustments	(12,404)	(12,218)	(186)
Net Best Estimate	213,899	207,390	6,509
Risk Margin	21,402	23,829	(2,427)
<b>Net Technical Provisions</b>	<b>235,301</b>	<b>231,219</b>	<b>4,082</b>
<b>LSSO London</b>	<b>20 Feb 2019</b>	<b>20 Feb 2018</b>	<b>Variance</b>
	<b>US\$'000</b>	<b>US\$'000</b>	<b>US\$'000</b>
Net Technical Provisions as per Statutory Accounts UK GAAP	11,897	3,780	8,117
Solvency II Adjustments	6,528	16,575	(10,047)
Net Best Estimate	18,425	20,355	(1,930)
Risk Margin	6,149	6,678	(529)
<b>Net Technical Provisions</b>	<b>24,574</b>	<b>27,033</b>	<b>(2,459)</b>

The main differences between the UK GAAP and the Solvency II net technical provisions are attributed to the inclusion of a Premium Provision relating to 'bound but not incepted' ("BBNI") business as well as the adjustments required to treat the Club's Hydra Cell as an investment and hence a third-party reinsurer.

A further breakdown showing the Claim Provision and Premium Provision separately by Solvency II line of business is provided in template S.17.01 in the QRTs in the Appendix towards the end of this Report.

### 4.2.1 Methodology and main assumptions used for valuation of best estimate

The technical provisions have been calculated separately for a Premium Provision and a Claim Provision. Furthermore, the 'Best Estimate' corresponds to the probability-weighted average of future cash-flows, taking the time value of money into account using the relevant risk-free interest rate term structure. A risk margin is added at the end to reflect the value of the technical provisions as the equivalent amount that insurance undertakings would be expected to require in order to take over and meet the insurance obligations of the Club. Although a predominantly marine liability insurer, we have split the assessment of our technical provisions into two classes of business, 'Marine, Aviation & Transport' and 'Legal Expenses'. The underlying methodology adopted was broadly similar for both classes using assumptions specific to each class of business, for example bespoke run-off patterns. A split of the best estimate and risk margin can be found in template S.17.01 of the QRTs included in the Appendix.

### Claim Provisions and corresponding reinsurance recoveries

The first step was to determine the 'true' best estimates. The UK GAAP reserve assessment, which is based on commonly accepted actuarial techniques, is used as the starting point. All implicit margins are then removed. Both attritional and large claim cash-flow patterns are derived using a chain-ladder approach, separately for Class 5 P&I and Class 8 FD&D. We have adopted a separate payment pattern for latent disease claim exposures.

The projected cash-flows for the large claims are then passed through the various reinsurance programmes (mainly excess loss) to derive appropriate reinsurance recovery payments patterns for main reinsurance groupings (e.g. IG Pooling Agreement, Hydra London Cell, LSSO Bermuda, etc.). For each of these groupings appropriate one-year probability of default and recovery rate assumptions are used based on the average credit rating of the counterparties within that grouping to derive an adjustment for counterparty default. The default probabilities used were those similar to the relevant credit quality steps provided by EIOPA.

Claims payments are made in various currencies over time with the overall majority of payments in US\$. Two other currencies that are used fairly regularly, especially in relation to claim fees, are GBP and EUR and we have allowed for appropriate cash-flow patterns for both these currencies.

#### *Premium Provision*

There was a small amount of unearned business relating to Fixed Premium business as at the valuation date. By far the biggest component of the Club's Premium Provision as at 20 February 2019 relates to BBNI business. This is because for the majority of our business, which is mutual entries, cover is renewed shortly before year-end and incepts at midday on 20 February.

Appropriate loss ratio assumptions are made and relevant cash-flow patterns are applied to premiums, gross claims, reinsurance premiums and recoveries, and expenses. As a traditional mutual aiming for a long-term breakeven result and in line with our underwriting risk appetite, we allow for a combined ratio in excess of 100%. This means under Solvency II we recognise the net present value of this anticipated loss, which leads to an increase in overall net technical provisions.

#### *Expenses*

The payment patterns described under Claim Provisions include all allocated loss adjustment expenses ("ALAE"), and hence future associated claim handling expenses and corresponding administration expenses are included and no further explicit allowance is required.

Unallocated loss adjustment expenses ("ULAE") are not included within the gross paid claim amounts and so they are projected separately under the following headings:

- Claims management expenses;
- Administrative expenses;
- Investment management expenses; and
- Acquisition expenses

For these expense items an estimate was made of the corresponding amount for the forthcoming financial year and of the corresponding proportion which relate to the servicing of existing liabilities. This assumes that the Club continues to write new business.

In deriving a cash-flow pattern for claims handling costs we determined a run-off pattern based on past data for the notification and closure of claims, and assigning appropriate annual costs of opening a claim, closing a claim and running an ongoing claim. Administrative expenses were assumed to run off in proportion to liabilities and investment expenses were assumed to run-off in a similar fashion but based on the average of the opening and closing reserve at each future year.

We've allowed for acquisition costs under Premium Provisions based on the actual data from BBNI business.

#### *Allowance for events not in the data ("ENID")*

A percentage loading is added to each future annual cash-flow separately for each currency, which increases over time to reflect the uncertainty associated with cash-flows long into the future.

#### *Discounting*

All future cash-flows (claims, premiums, reinsurance recoveries, expenses, etc.) have been discounted using the prescribed EIOPA yield curves as at 28 February 2019. Where cash-flows were split between USD, GBP and EUR the relevant interest rate structure for each of these currencies was used. Reinsurance recoveries are in USD and here we used a weighted average yield curve based on the USD, GBP and EUR gross cash-flows.

### Risk Margin

In line with EIOPA guidance, the risk margin is calculated using a cost-of-capital approach (currently equal to 6%). This approach is intended to ensure that the value of the technical provisions is equivalent to the amount that insurance undertakings would be expected to require in order to take over and meet the insurance obligations.

The 'proxy SCR' as at the valuation date is calculated using the Standard Formula in line with the calculation for a full SCR, but only applied to business included in the Solvency II Technical Provisions (e.g. excluding Market risk). Future SCRs are projected to run-off in line with the net future liabilities but subject to an adjustment so as to ensure that the proportion of the discounted SCR at time t in relation to the discounted net technical provisions also at time t is not lower than the corresponding ratio between proxy SCR and net technical provisions as at the valuation date.

#### 4.2.2 Uncertainty associated with the value of technical provisions

Whilst we have made every effort to ensure the estimate of the Solvency II technical provisions is an accurate assessment of future obligations, it remains an approximation. Factors affecting the level of uncertainty are both internal and external and the nature of these factors are such that they are difficult to quantify in both likelihood and magnitude. The issues that affect the certainty of the technical provisions include:

- The projection of numerous cash-flows, including future premiums, claim payments and reinsurance recoveries on these payments. None of these will develop exactly as projected and deviations from these projections are normal and to be expected.
- The assumptions used to calculate the Premium Provision are based on the expectation of an 'average year'. Actual underwriting performance for that business may vary significantly from the assumed position at the outset.
- The yield curves used to discount future cash-flows can vary from one year to the next which introduces additional balance sheet volatility that doesn't exist on a UK GAAP balance sheet.
- There is greater uncertainty associated with more recent policy years as these are still in an early stage of development.
- For certain elements of the technical provisions, for example ENIDs, very little data exists on which to base the assumptions and hence a high degree of judgement is required, which could lead to increased uncertainty in the estimates.

#### 4.2.3 Other adjustments

We have not applied any other adjustments to the technical provisions such as the matching adjustment or volatility adjustments. Neither did we applied any transitional arrangements such as for example on the risk free interest rate term structures.

#### 4.2.4 Material changes since the previous valuation

There have been no other material changes in the Technical Provisions methodology since the previous valuation.

### 4.3 Other Liabilities

The following two tables set out a comparison of the valuation of liabilities between UK GAAP and Solvency II for both the Club and LSSO London:

Club	20 Feb 2019			20 Feb 2018		
	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000	UK GAAP US\$'000	Solvency II US\$'000	Variance US\$'000
Technical Provisions	329,037	348,307	19,270	299,786	323,502	23,716
Derivatives	-	75	75	-	57	57
Insurance & Intermediaries payables	3,202	3,202	-	3,285	3,285	-
Reinsurance payables	424	424	-	321	321	-
Payables (trade, not insurance)	9,939	8,624	(1,315)	14,752	14,844	92
Any other liabilities, not else shown	125	125	-	54	54	-
<b>Total Liabilities</b>	<b>342,727</b>	<b>360,757</b>	<b>18,030</b>	<b>318,198</b>	<b>342,063</b>	<b>23,865</b>
<b>Excess of Assets over Liabilities</b>	<b>168,842</b>	<b>145,635</b>	<b>(23,207)</b>	<b>194,640</b>	<b>166,069</b>	<b>(28,571)</b>

LSSO London	UK GAAP	Solvency II	Variance	UK GAAP	Solvency II	Variance
	US\$'000	US\$'000	US\$'000	US\$'000	US\$'000	US\$'000
Technical Provisions	329,306	316,549	(12,757)	301,489	284,636	(16,853)
Insurance & Intermediaries payables	3,202	3,202	-	3,285	3,285	-
Reinsurance payables	424	424	-	321	321	-
Payables (trade, not insurance)	15,285	15,285	-	44,677	44,677	-
Any other liabilities, not else shown	125	125	-	54	54	-
<b>Total Liabilities</b>	<b>348,342</b>	<b>335,585</b>	<b>(12,757)</b>	<b>349,826</b>	<b>332,973</b>	<b>(16,853)</b>
<b>Excess of Assets over Liabilities</b>	<b>7,027</b>	<b>145,129</b>	<b>138,102</b>	<b>22,974</b>	<b>163,074</b>	<b>140,100</b>

#### 4.3.1 Differences between Solvency II and UK GAAP valuations

In general, the valuation method of liabilities is aligned with the statutory accounts and so the basis of preparation aligns with the accounting policies outlined in the Club's Annual Report and Financial Statements in Notes 14 and 15.

#### 4.4 Any Other Information

There is no other material information to report regarding the Club's valuation of assets and liabilities.

## 5 CAPITAL MANAGEMENT

### 5.1 Own Funds

#### 5.1.1 Objectives and management of Own Funds

The Club's Business Plan and ORSA process measure the Club's current and projected capital and solvency position over a five year time horizon. The core capital management objective over this time horizon is for the Club to maintain Tier 1 basic own funds at a level which provides a capital buffer in excess of the higher of its SCR and its ORSA derived solvency needs.

Notwithstanding this core objective, however, the contractual right to make a supplementary call on the mutual Membership represents an important, well understood and highly efficient means by which the Club can manage its capital requirements in times of financial stress. Article 89 of Directive 2009/138/EC recognises that in the case of a mutual association with variable contributions, future claims which it has the right to levy on its Membership may be treated as ancillary own funds ("AOF") forming part of the association's overall capital resources available to meet the SCR. The Club views it as an important matter of principle that this highly reliable source of capital is recognised as part of the overall capital resources available, and is committed to maintaining at all times supervisory approval for this AOF item.

#### 5.1.2 Structure, amount and quality of Own Funds

The following tables provide a summary of the movement in own funds for both the Club and LSSO London over the reporting period:

Club	20 Feb 2019 US\$'000	Movement US\$'000	20 Feb 2018 US\$'000
<b>Basic Own Funds</b>			
Reconciliation reserve	145,635	(20,434)	166,069
<b>Total Basic Own Funds</b>	<b>145,635</b>	<b>(20,434)</b>	<b>166,069</b>
<b>Ancillary Own Funds</b>			
Supplementary calls as per Article 89	25,000	-	25,000
<b>Total Own Funds</b>	<b>170,635</b>	<b>(20,434)</b>	<b>191,069</b>
<b>LSSO London</b>	<b>20 Feb 2019 US\$'000</b>	<b>Movement US\$'000</b>	<b>20 Feb 2018 US\$'000</b>
<b>Basic Own Funds</b>			
Reconciliation reserve	145,129	(17,945)	163,074
<b>Total Basic Own Funds</b>	<b>145,129</b>	<b>(17,945)</b>	<b>163,074</b>
<b>Ancillary Own Funds</b>			
Supplementary calls as per Article 89	25,000	-	25,000
<b>Total Own Funds</b>	<b>170,129</b>	<b>(17,945)</b>	<b>188,074</b>

The PRA has granted the Club approval on 20 February 2017 for USD25m of AOF when determining its own funds, with this approval granted for a period of three years.

#### 5.1.3 Eligible amount of Own Funds available to cover SCR and MCR, classified by tiers

The following tables provide a summary of the movement in eligible own funds for both the Club and LSSO London over the reporting period available to cover the SCR:

Club	20 Feb 2019 US\$'000	Movement US\$'000	20 Feb 2018 US\$'000
Tier 1	145,635	(20,434)	166,069
Tier 2	25,000	-	25,000
Tier 3	-	-	-
<b>Eligible Own Funds</b>	<b>170,635</b>	<b>(20,434)</b>	<b>191,069</b>
<b>LSSO London</b>	<b>20 Feb 2019 US\$'000</b>	<b>Movement US\$'000</b>	<b>20 Feb 2018 US\$'000</b>
Tier 1	145,129	(17,945)	163,074
Tier 2	25,000	-	25,000

Tier 3	-	-	-
<b>Eligible Own Funds</b>	<b>170,129</b>	<b>(17,945)</b>	<b>188,074</b>

All eligible own funds are unrestricted and available to meet the SCR. AOF are not available to cover the MCR, and thus only Tier 1 funds in the previous two tables are available to meet the MCR.

#### 5.1.4 Differences between UK GAAP equity and Solvency II excess of assets over liabilities

The majority of assets and liabilities are valued identically under UK GAAP and Solvency II. The key differences are the valuation of the technical provisions and the accounting treatment of the Club's investment in Hydra. These differences can be summarised as follows:

Club	20 Feb 2019 US\$'000	Movement US\$'000	20 Feb 2018 US\$'000
<b>Retained Earnings as per UK GAAP</b>	<b>168,842</b>	<b>(25,798)</b>	<b>194,640</b>
Difference in valuation of assets	(15,018)	1,794	(16,812)
Difference in valuation of technical provisions	(9,430)	2,180	(11,610)
Difference in valuation of other liabilities	1,241	1,390	(149)
<b>Solvency II excess of assets over liabilities</b>	<b>145,635</b>	<b>(20,434)</b>	<b>166,069</b>
<b>LSSO London</b>	<b>20 Feb 2019 US\$'000</b>	<b>Movement US\$'000</b>	<b>20 Feb 2018 US\$'000</b>
<b>Retained Earnings as per UK GAAP</b>	<b>7,027</b>	<b>(15,947)</b>	<b>22,974</b>
Difference in valuation of assets	151,212	(12,141)	163,353
Difference in valuation of technical provisions	(13,110)	10,143	(23,253)
Difference in valuation of other liabilities	-	-	-
<b>Solvency II excess of assets over liabilities</b>	<b>145,129</b>	<b>(17,945)</b>	<b>163,074</b>

#### 5.1.5 Description and the amount of Ancillary Own Funds

A description of the AOF item and the amount approved by the PRA is provided in Sections 5.1.1 and 5.1.2.

#### 5.1.6 Description of items deducted from Own Funds

There are no items that are deducted from own funds and no significant restrictions affecting the availability and transferability of own funds.

## 5.2 Solvency Capital Requirement and Minimum Capital Requirement

### 5.2.1 Solvency Capital Requirement as at 20 February 2019

The SCRs of the Club and LSSO London as at the valuation date were US\$113.3m and US\$77.1m respectively. The following table shows the relevant SCRs split by risk modules as at 20 February 2019:

Club	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
Non-life Underwriting Risk	69,632	68,324	1,308
Market Risk	54,490	65,059	(10,569)
Counterparty Default Risk	9,431	17,404	(7,973)
<b>Undiversified Basic SCR</b>	<b>133,553</b>	<b>150,787</b>	<b>(17,234)</b>
Diversification benefit	(30,028)	(35,976)	5,948
<b>Basic SCR</b>	<b>103,525</b>	<b>114,811</b>	<b>(11,286)</b>
Operational Risk	9,807	8,990	817
<b>Standard Formula SCR</b>	<b>113,332</b>	<b>123,801</b>	<b>(10,469)</b>

LSSO London	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
Non-life Underwriting Risk	9,755	6,804	2,951
Market Risk	49,567	54,571	(5,004)
Counterparty Default Risk	28,493	34,882	(6,389)
<b>Undiversified Basic SCR</b>	<b>87,815</b>	<b>96,257</b>	<b>(8,442)</b>
Diversification benefit	(20,067)	(21,318)	1,251
<b>Basic SCR</b>	<b>67,748</b>	<b>74,939</b>	<b>(7,191)</b>
Operational Risk	9,312	8,339	973
<b>Standard Formula SCR</b>	<b>77,060</b>	<b>83,278</b>	<b>(6,218)</b>

We did not use any simplified calculations in our assessment and neither did we use the duration-based equity risk sub-module as set out in Article 304 of Directive 2009/138/EC in the calculation of the SCR.

#### Non-Life Underwriting Risk

The Club's largest risk exposure relates to expired and unexpired business. 'Premium and Reserve Risk' was split between 'Marine, Aviation & Transportation' and 'Legal Expenses' lines of business. We have not used Undertaking-Specific Parameters but we did allow for geographical diversification as underlying risks are spread globally.

The 'Catastrophe Risk' sub-module reflects the exposure to a man-made catastrophe involving a tanker collision.

#### Market Risk

The Club follows an investment strategy that exposes it to 'Equity Risk' and 'Spread Risk' in particular. Over the reporting period there was a de-risking of equity and fixed income portfolios which resulted in a reduction in the 'Spread Risk' charge and 'Equity Risk' charge. Under 'Equity Risk' we have applied a symmetrical adjustment of -2.43% to the standard 39% and 49% shocks for Type 1 and Type 2 equities respectively. Notwithstanding that the Club holds assets in each of the key currencies in which has outstanding liabilities, there remains an element of currency mismatching, principally with regards to GBP and EUR exposures.

#### 5.2.2 Minimum Capital Requirement as at 20 February 2019

The MCRs of the Club and LSSO London as at the valuation date were US\$38.1m and US\$19.3m respectively. The following table shows the inputs into the MCR calculation as at 20 February 2019. Note the Absolute Floor of the MCR ("AMCR") is prescribed by EIOPA and is €3.7m:

Club	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
AMCR*	4,188	4,306	(118)
Linear MCR	31,111	30,080	1,031
SCR	113,332	123,801	(10,469)
Combined MCR	31,111	30,950	161
Minimum consolidated Group SCR	38,099	39,888	(1,789)
<b>Minimum Capital Requirement</b>	<b>38,099</b>	<b>39,888</b>	<b>(1,789)</b>
LSSO London	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
AMCR*	4,188	4,306	(118)
Linear MCR	3,364	3,740	(376)
SCR	77,060	83,278	(6,218)
Combined MCR	19,265	20,819	(1,554)
<b>Minimum Capital Requirement</b>	<b>19,265</b>	<b>20,819</b>	<b>(1,554)</b>

\*AMCR is converted at US\$1.1318 (20 Feb 2018: US\$1.1638) as per Article 300

The following information, by Solvency II line of business, was used to calculate the MCR:

- Net written premium in the previous 12 months to the valuation date
- Net best estimate technical provisions

The Club AMCR, Linear MCR and Combined MCR is outside of scope for audit purposes as there is no S.28.01 reporting template under Group QRTs to be disclosed in the SFCR.

#### 5.2.3 Material changes to the SCR and MCR over the reporting period

The underlying risk profile has remained broadly unchanged over the reporting period although a reduction in the exposure to equities and fixed income assets resulted in a US\$10.6m decrease in Market risk for the Group SCR. The MCR has remained broadly constant over the reporting period.

#### 5.2.4 Non-compliance SCR/MCR

There were no instances of non-compliance with either the MCR or the SCR during the period from 20 February 2018 to 20 February 2019.

### 5.3 Overall Solvency

The table below shows the SCR and MCR solvency ratios for the Club and LSSO London as at 20 February 2019:

Club	Solvency Capital Requirement			Minimum Capital Requirement		
	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
Capital Requirement	113,332	123,801	(10,469)	38,099	39,888	(1,789)
Eligible Own Funds	170,635	191,069	(20,434)	145,635	166,069	(20,434)
<b>Surplus Funds</b>	<b>57,303</b>	<b>67,268</b>	<b>(9,965)</b>	<b>107,536</b>	<b>126,181</b>	<b>(18,645)</b>
Solvency Ratio	150.6%	154.3%	(3.7%)	382.3%	416.3%	(34.0%)
LSSO London	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000	20 Feb 2019 US\$'000	20 Feb 2018 US\$'000	Change US\$'000
Capital Requirement	77,060	83,278	(6,218)	19,265	20,819	(1,554)
Eligible Own Funds	170,129	188,074	(17,945)	145,129	163,074	(17,945)
<b>Surplus Funds</b>	<b>93,069</b>	<b>104,796</b>	<b>(11,727)</b>	<b>125,864</b>	<b>142,255</b>	<b>(16,391)</b>
Solvency Ratio	220.8%	225.8%	(5.0%)	753.3%	783.3%	(30.0%)

### 5.4 Any Other Information

There is no other material information to report regarding the Club's capital management.

## Appendix 1: Quantitative Reporting Templates (QRTs)

The remaining part of this submission contains the required QRTs for the Club and LSSO London in line with Solvency II requirements.

All figures are presented in thousands of US Dollars with the exception of ratios that are in decimal. Please note that totals may differ from the component parts due to rounding. All items disclosed are consistent with the information provided privately to the regulator.

The following Group QRTs are provided:

<b>Reference</b>	<b>QRT Template Description</b>
S.02.01.02	Balance Sheet
S.05.01.02	Premiums, claims and expenses by line of business
S.05.02.01	Premiums, claims and expenses by country
S.23.01.22	Own Funds
S.25.01.22	Solvency Capital Requirement – for groups on Standard Formula
S.32.01.22	Undertakings in the scope of the group

The following Solo QRTs are provided:

<b>Reference</b>	<b>QRT Template Description</b>
S.02.01.02	Balance sheet
S.05.01.02	Premiums, claims and expenses by line of business
S.05.02.01	Premiums, claims and expenses by country
S.17.01.02	Non-Life Technical Provisions
S.19.01.21	Non-Life insurance claims
S.23.01.01	Own Funds
S.25.01.21	Solvency Capital Requirement – for undertakings on the Standard Formula
S.28.01.01	Minimum Capital Requirement – only life or only non-life insurance or reinsurance activity
