30 March 2004

TO ALL MEMBERS

Dear Sirs

WAR P&I RISKS – AGREEMENT TO POOL CERTAIN 'BIO-CHEM CLAIMS'

Members will be aware that, while the wordings differ, most War Risk Hull and P&I policies issued since February 2003 include a 'Bio-Chem Exclusion Clause' and will continue to do so for the foreseeable future.

The 2004 Excess War Risks P&I cover provided by International Group Clubs for USD400million in excess of an entered vessel's proper hull value also contains a 'Bio-Chem Exclusion Clause'.

The consequence of these clauses is that most, if not all, Assureds have no cover for War P&I Risks which are caused either directly or indirectly by a chemical, biological, bio-chemical, or electromagnetic weapon, or from the use of any computer or computer system as a means for inflicting harm.

All International Group Clubs (with the current exception of the Japan P&I Club) have now agreed that they should provide limited cover for two war P&I risks by way of supplement to the Group's Pooling Agreement 2004, for which there would otherwise be no cover in light of the operation of a 'Bio-Chem Exclusion Clause'.

Accordingly, with effect from noon on 15 March 2004, Assureds will be covered through the Group's new pooling facility, in respect of any event falling within a 'Bio-Chem Exclusion Clause', for:

- (1) any liability to pay damages, compensation or expenses in consequence of the personal injury to or illness or death of any seaman (including diversion expenses, repatriation and substitute expenses and shipwreck unemployment indemnity), and
- (2) any legal costs and expenses incurred solely for the purpose of avoiding or minimising any P&I liability or risk insured by the Association (other than legal costs and expenses falling under the Omnibus Rule).

The detailed terms and conditions of the cover in respect of Bio-Chem Claims are contained within the attached War Risks – Bio-Chem Inclusion Clause but the principal provisions are as follows:

- (1) Cover, which will attach automatically for all Assureds, will be from the ground up (in excess of Assureds' usual deductible) but limited to USD20million any one event or occurrence (or series of occurrences arising from the same event) each vessel.
- (2) Individual Clubs will retain the first USD5million of any one claim, with the USD15million excess of USD5million being pooled as in the case of any other Pool claim.

P.T.O.

- (3) The limit of cover (USD20million) will apply to all interests in each vessel in aggregate, regardless of the number of interests and regardless of whether or not they are entered in different P&I Clubs (for example, owners, charterers and sub-charterers).
- (4) To avoid excessive aggregation of risk, cover will have a cancellation provision and areas of particular sensitivity may also be the subject of geographical exclusions (for example, the Athens Olympics), both cancellation and geographical exclusions requiring the giving of 24 hours' notice to Members.
- (5) No premium will be charged for the cover, although premium may be charged for specific risks which may arise and which may be the subject of a premium notice if cover is to be maintained or varied.

Yours faithfully
A BILBROUGH & CO LTD
(MANAGERS)
